## Absolute effects for harms outcomes; one-time AAA screening in men with ultrasound

| Outcome | \# of studies | Length of follow-up | Absolute effect | Number needed | Lower limit | Upper limit | Comments |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| No. of AAA operations | 4 | 3 to 5 years | 0.47\% | 215 | 159 | 305 | ARI - NNH |
|  | 1 | 6 to 7 years | 0.67\% | 149 | 110 | 212 |  |
|  | 3 | 10 to 11 years | 0.62\% | 162 | 112 | 263 |  |
|  | 3 | 13 to 15 years | 0.58\% | 171 | 107 | 358 |  |
| No. of Elective operations | 4 | 3 to 5 years | 0.58\% | 172 | 98 | 342 | ARI - NNH |
|  | 1 | 6 to 7 years | 0.87\% | 115 | 88 | 154 |  |
|  | 3 | 10 to 11 years | 0.91\% | 110 | 88 | 142 |  |
|  | 3 | 13 to 15 years | 1.00\% | 100 | 52 | 281 |  |
| No. of Emergency operations | 4 | 3 to 5 years | 0.07\% | 1389 | 980 | 4975 | ARR - NNS |
|  | 1 | 6 to 7 years | 0.19\% | 514 | 428 | 715 |  |
|  | 3 | 10 to 11 years | 0.26\% | 384 | 329 | 488 |  |
|  | 4 | 13 to 15 years | 0.21\% | 471 | 394 | 622 |  |
| 30-day mortality AAA operations | 3 | 3 to 5 years | 12.83\% | 8 | 7 | 10 | ARR - NNO |
|  | 1 | 6 to 7 years | 13.59\% | 7 | 6 | 10 |  |
|  | 2 | 10 to 11 years | 12.74\% | 8 | 7 | 10 |  |
|  | 3 | 13 to 15 years | 5.63\% | 18 | 13 | 39 |  |
| 30-day mortality Elective AAA operations | 4 | 3 to 5 years | 3.93\% | 25 | 17 | 2227 | ARR - NNO |
|  | 1 | 6 to 7 years | NS | NA | - | - | NS effect |
|  | 3 | 10 to 11 years | NS | NA | - | - |  |
|  | 3 | 13 to 15 years | NS | NA | - | - |  |
| 30-day mortality Emergency AAA operations | 3 | 3 to 5 years | NS | NA | - | - | NS effect |
|  | 1 | 6 to 7 years | NS | NA | - | - |  |
|  | 2 | 10 to 11 years | NS | NA | - | - |  |
|  | 3 | 13 to 15 years | NS | NA | - | - |  |

ARI - NNH = Absolute risk increase \& number needed to harm
ARR - NNS = Absolute risk reduction \& number needed to screen
ARR - NNO = Absolute risk reduction \& number needed to operate
NS = non-significant effect with $95 \%$ Cl's including the no effect value.
NA = Not applicable.
