

# Task Force Public Advisors Network (TF-PAN)

A national guideline group, the **Canadian Task Force on Preventive Health Care**, seeks members of the public for a new initiative.

- ✓ The **Task Force Public Advisors Network** is recruiting 10-12 members, representing Canada's diverse population from all regions of the country, for a 1-year term.

## Get involved!

Help inform guidelines that doctors and health care providers use for high-quality preventive health care.

- The **TF-PAN** will ensure the views of patients and the public are included in national clinical practice guidelines.

The role involves:

- Giving opinions on screening for different health topics and diseases
- Providing feedback on Task Force fact sheets, infographics and brochures for patients
- Sharing guidelines and tools

**Panel members will be paid and receive training.**

Canadian Task Force  
on Preventive Health Care

Do you have ideas about how family doctors can talk to patients about their health?

Is health care important to you?

## Who We Are

The **Canadian Task Force on Preventive Health Care** produces national evidence-based preventive health care guidelines and tools for use by family doctors and primary health care providers.

Topics include screening for:

- lung, prostate and colorectal cancers
- infectious diseases
- mental health
- chronic health conditions such as diabetes, heart disease
