

Canadian Task Force on Preventive Health Care

Disclosure Form

Preamble:

The Canadian Task Force on Preventive Health Care (Task Force) Disclosure Form will be completed by Task Force members prior to each in-person meeting to provide information on **financial, business/professional, and intellectual interests related to the topics addressed that could potentially be construed or seen as giving rise to conflicts of interest (COI).**

Task Force members are expected to provide full disclosure for new topics, and an updated disclosure, reflecting changes in their situation since the form was last completed, for continuing topics.

Task Force Disclosure Form will also be completed by new Task Force members prior to their participation. Completed Disclosure Forms will be kept on file by the Project Lead and posted on the Task Force website.

The declaration of one or more interests will not be taken to indicate that a real or potential COI is present. The Task Force will carry out an evaluation of declared interests to determine whether or not they represent a COI. **To facilitate assessment of the interests for COI, for each entry, please include a brief explanation of the relevance of the declared interest to the guideline topic and why it could be construed or seen as giving rise to COI.**

Name: Brenda Wilson

I have reviewed my current activities and those of the past 3 years for interests that could potentially be construed or seen as giving rise to COI, or that could otherwise impair the scientific integrity of the work of the Canadian Task Force on Preventive Health Care, particularly as they relate to the attached Affiliations and Interests Checklist, including financial and/or intellectual affiliations or memberships in associations, research funding, payments, gifts, gratuities, honoraria, advocacy, consulting or other conflicts

I have also considered the activities of my spouse/common-law partner and immediate family members insofar as they could be viewed to affect my impartiality.

I would like to bring the following to the attention of other members of the Canadian Task Force on Preventive Health Care (check appropriate box and provide details, including a brief explanation of the relevance of the interest to the topic and why it could be construed or seen as giving rise to COI, below):

Details:

Prostate cancer

I have conducted and authored studies on the use of genetic panels for risk stratification and screening for prostate cancer, most recently published was 2016.

Hypertension

My spouse provides advice to Hypertension Canada in relation to its efforts to improve the implementation and use of its guidelines. He does this as an invited member of its Education and Implementation Committee. He receives no cash or in-kind compensation. He is not involved in the development of its guidelines.

I hereby certify that I do not have any relevant interests to disclose that could potentially be construed or seen as a COI except as disclosed above.

I undertake to inform the Chair and the Project Lead of any changes in circumstances that may place me in a position of real, potential or apparent conflict of interest.
